

TECHNICAL DATASHEET

Airless atomizer HYDROFUT 1200 | ref.30895

HYDROFUT 1200 is configured for interior and exterior large painting jobs. It offers a continuous product flow-rate for a uniform coating and a regular atomization. It draws the paint directly from paint barrels.

Compact and equipped with a removable pump, it can take place in the back of a truck with barrels or bags. Its ergonomic shape and its motorized drum with 80 m of hose allows it to work directly from the truck.

APPLICATIONS

Interior and exterior large paint jobs, and interior light airless fillers jobs.

For facades jobs, thick plastic coatings, waterproofing coatings,...

Max product pressure	250 bar
Max product flow-rate	12 L/min
